

Developers are Neither Enemies Nor Users: They are Collaborators

Partha Das Chowdhury, Joseph Hallett, Nikhil Patnaik,
Mohammad Tahaei, Awais Rashid

Tales from the Trenches

What to Do?

How to Do?

Interfere with Functions

Why Use it Anyway?

It does not do much

Should I ?

I would rather not do it.

The answer on Stack looks nice.

There are others doing it like this.

I would rather not do it.

Will I get paid extra ?

**IEEE
SecDev | 2021**

Interventions

**Developers
As Users**

Take solo developers out of the Loop

**Platform
Initiatives**

We will mediate the updates

**IEEE
SecDev | 2021**

Interventions

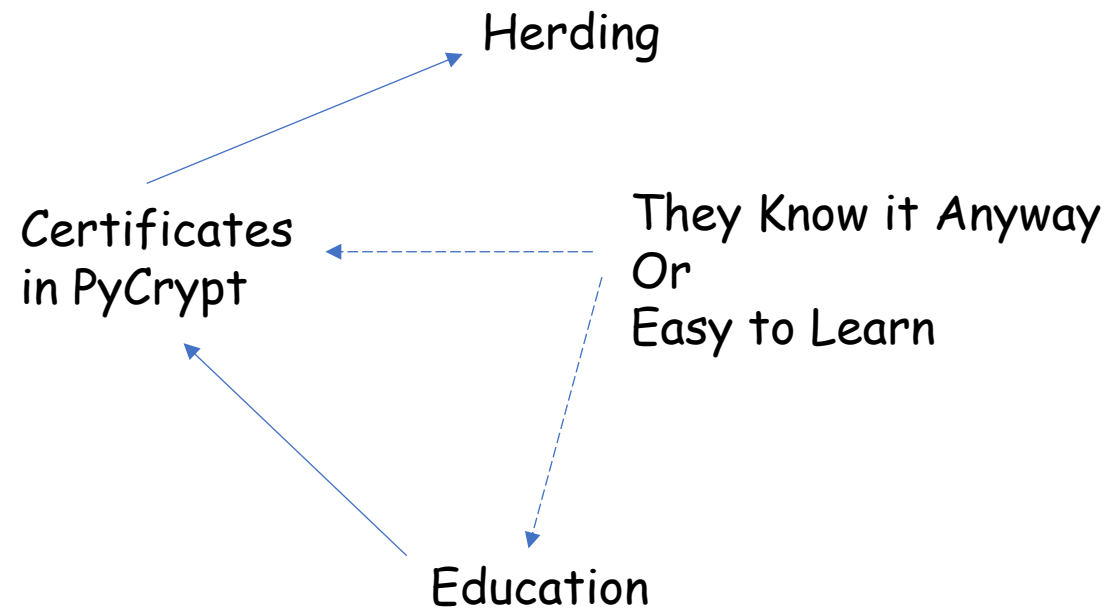

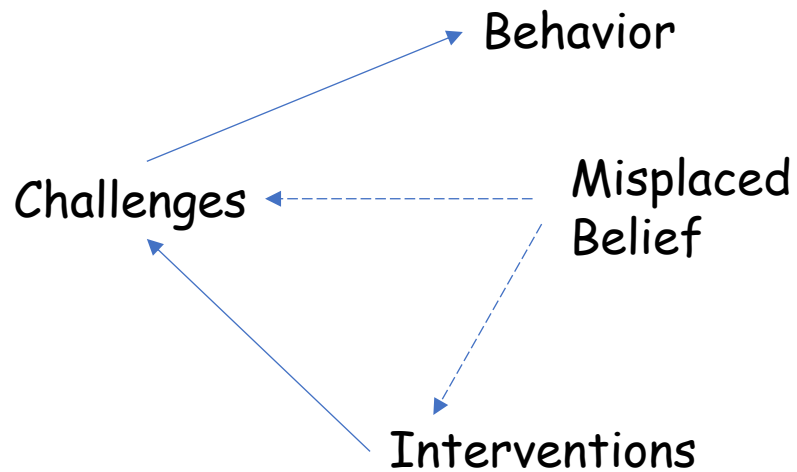

**Assurance
Mechanisms**

Keep Calm The Red Team is Here

Education

Let's Make the Horse Drink

Tropes ~ Misplaced Beliefs

Developers
are
Experts?

They do not need to learn?
They will test their applications to
death?
Let's not put the Auxiliary
functions?

Security
is Easy?

Can't is short for Cannot
Don't is for Doughnut

Everyone
has the
same
Security
Needs?

Take Developers out of the loop

Security
is A
Universal
Priority?

Developers will test their
applications to death?
Developers will update anyway.
Can't is short for Cannot
Don't is for Doughnut

IEEE
SecDev | 2021

Developers will update anyway.
